EDUCATION

2021 - 2025

Ho Chi Minh City University of Technology (HUTECH).

Major : Software engineer

Five Good Student - Department Level

Outstanding Student of the Year (2021, 2023, 2024)

GPA 3.23/4.0

SKILLS

Programing Languages:

- Java
- C#
- Flutter

Frameworks/Platforms:

- Spring Boot
- ASP.NET

Database

- Sql,Mysql
- Firebase

Other technical skills

- Github
- Jira

Soft skills:

- Communication
- Teamwork
- Time management
- roblem-solving

PROJECTS IN SCHOOL

Sep 2024 - Dec 2024

Website and App Clinic Appointment Booking

- **Project summary:** "Designed and developed a clinic appointment booking application that enables patients to schedule and manage medical appointments seamlessly. Implemented real-time database synchronization between web and mobile platforms, ensuring smooth appointment management and timely reminders."

- **Project Stacks:** JAVA, flutter,HTML, CSS, Real-time database(firebase)
- **Position:** Leader
- **Team size:** 03 people
- **Responsibilities :**
 - Utilized the Hive model to integrate the Gemini AI chatbot into the application for customer consultation.
 - Integrated Talk.io API into the website to enable messaging and provide a chatbox for customer support
 - Designed and optimized the relational database schema for efficient storage and retrieval of patient and appointment data.
 - Developed a robust appointment scheduling system, enabling users to select doctors, view real-time availability, and confirm bookings.

Jul 2024 - Aug 2024

HappyHomes App

- **Project summary:** Developed an Android app to provide house cleaning services, allowing users to easily book cleaning appointments.
- **Project Stacks:** Java, xml,Sqlite
- **Position:** Leader
- **Team size:** 04 people
- **Responsibilities :**
 - Analyzed the database structure and implemented the connection to the database.
 - Integrated Google Maps services for users to select locations on the map.
 - Integrated ZaloPay payment gateway for secure payment processing.
 - Implemented the functionality for users to schedule house cleaning services.

Jun 2023 - Jan 2024

Website Clinic Appointment Booking

- **Project summary:** Developed a clinic appointment booking application that enables patients to schedule medical appointments, manage bookings, and receive reminders
- **Project Stacks:** C#, HTML, CSS, SQL Server
- **Position:** Leader
- **Team size:** 02 people
- **Responsibilities :**
 - Designed and implemented the database structure for storing patient and appointment data efficiently.
 - Developed the appointment booking system, allowing users to select doctors, available time slots, and confirm bookings.
 - Implemented user authentication and role-based access control for patients and doctors using C#.
 - Designed a responsive web interface using HTML, CSS, and JavaScript for a smooth user experience.
 - Developed email notifications for appointment reminders.
